

## Step 3 - Add Segmented Walls

1. A Building may have multiple sections, multiple levels and multiple Wall Segments.
2. When adding a Level, if the **Segmented Wall** question; “Is the entire perimeter of the exterior wall the same height and material?” is answered “No,” additional information will be needed.
3. Note that when the answer is “No” the form changes from

Segmented Wall?\*

Is the entire perimeter of the exterior wall the same height and material?

Yes ▾

Average Wall Height: \*

0

to

Segmented Wall?\*

Is the entire perimeter of the exterior wall the same height and material?

No ▾

First Exterior Wall Segment

Wall Segment Length: \*

0

Wall Segment Height: \*

0

4. Enter details for the first Wall Segment and click [Save](#)
